

FY2015
Graduate School of Integrated Pharmaceutical and
Nutritional Sciences
Entrance Examination Guidelines

Graduate Program in Food and Nutritional
Sciences, Graduate Program in
Environmental Health Sciences
[Doctoral Program]

Application period for Qualifications Evaluation

[First Application] From Friday, June 20 to Thursday, June 26, 2014, by 17:00

[Second Application] From Friday, December 12 to Thursday, December 18, 2014, by 17:00

Application period for examination

[First Application] From Tuesday, July 22 to Monday, July 28, 2014, by 15:00

[Second Application] From Thursday, January 29 to Wednesday, February 4, 2015, by 15:00

Date of examination

[First Application] Tuesday, August 19, 2014

[Second Application] Tuesday, March 3, 2015

Announcement of Successful Applicants

[First Application] After 10:00 on Thursday, September 4, 2014

[Second Application] After 10:00 on Friday, March 6, 2015

The University of Shizuoka

<http://eng.u-shizuoka-ken.ac.jp/>

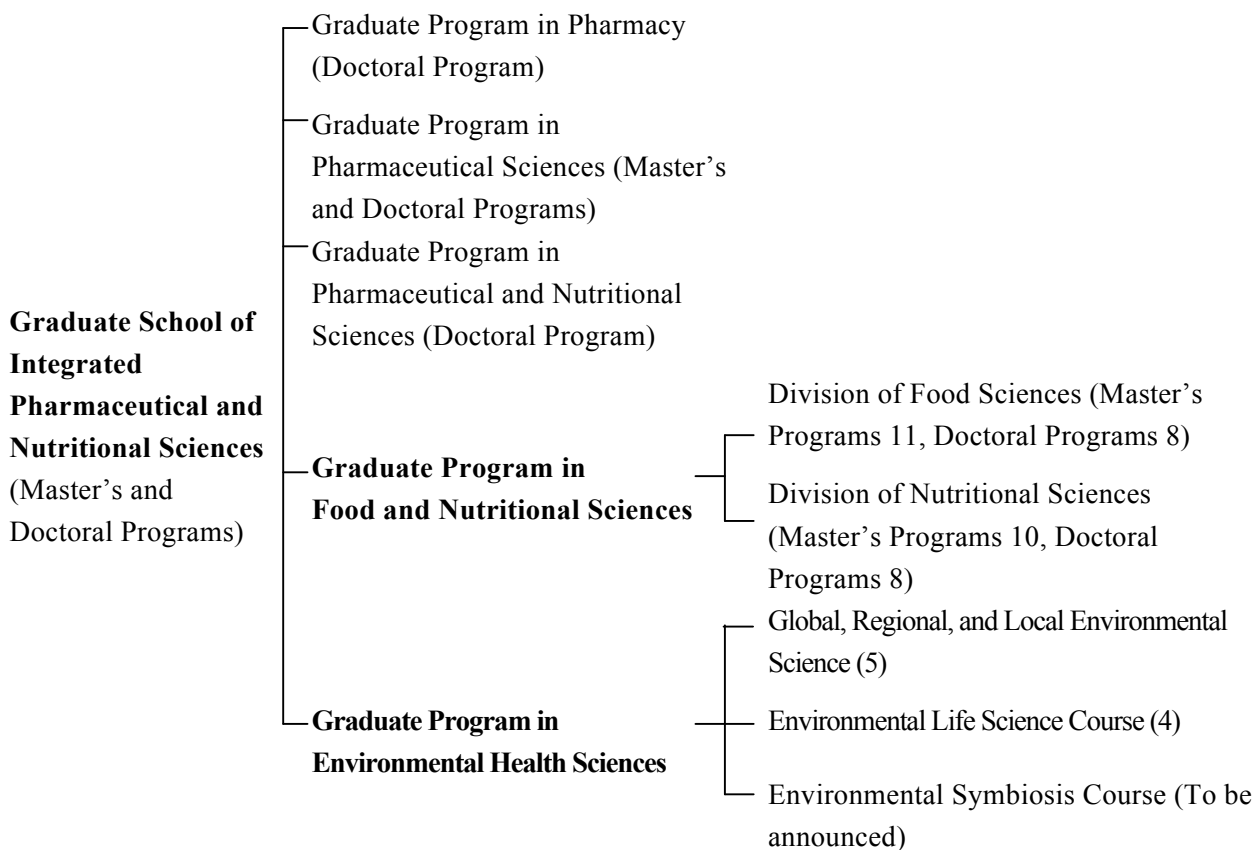

Graduate School of Integrated Pharmaceutical and Nutritional Sciences

Graduate School of Pharmaceutical and Nutritional Sciences

The School of Pharmaceutical Sciences and the School of Food and Nutritional Sciences were reorganized and consolidated to form the Graduate School of Integrated Pharmaceutical and Nutritional Sciences, which opened in 2012. We develop cutting edge Nutritional Sciences based on pharmaceuticals and food, and educate our students to be researchers and professionals with high expertise, who can contribute to healthy longevity as well as the creation of a safe and peaceful environment. Our school is the achievement of the 21st Century COE Program “Center of Excellence for Evolutionary Human Health Sciences,” which was established in 2002, and the Global COE Program “Global Center of Excellence for Innovation in Human Health Sciences,” which was established in 2007, sponsored by the Ministry of Education, Culture, Sports, Science and Technology. We have five areas of programs, and the Graduate Program in Food and Nutritional Sciences and Graduate Program in Environmental Health Sciences provide graduate education and research for “Food, Nutrition, Environment,” which are key to the sustainability of the human being. Part of the laboratory that belongs to the Graduate Program in Food and Nutritional Sciences is used by the Graduate Program in Pharmaceutical and Nutritional Sciences at the doctoral level.

The Graduate Program in Food and Nutritional Sciences consists of two divisions, the Division of Food Sciences and the Division of Nutritional Sciences. Our students learn basic science and advanced technologies to contribute to the preservation of health and prevention of disease through food, and to be researchers or professionals with high expertise and technique for a rapidly advancing aging society. The Division of Food Sciences focuses on the functions of food, biochemistry, genetic engineering and plant science in addition to the chemical composition of food, processing and storage techniques, and food safety. The Division of Nutritional Sciences investigates the biological response to nutrients, the molecular mechanism of cancer and its prevention, with a special focus on nutrition and meal management as a treatment of disease, and basic, advanced and practical research for the prevention of lifestyle-related illness.

The Graduate Program in Environmental Health Sciences consists of three courses; Global, Regional, and Local Environmental Science Course; Environmental Life Science Course; and Environmental Symbiosis Course. Our students will be individuals who are capable of seeing environmental problems from multiple perspectives, and who will contribute to the development of an environmentally sustainable society. In the “Global, Regional, and Local Environmental Science Course”, students study pollution from harmful chemical substances, as well as analysis and evaluation of the changes in regional or global environments, based on observation in the fields of atmosphere, water, forests and ocean. In the “Environmental Life Science Course”, students learn various life phenomena from microbes to Homo sapiens, and study environmental responses of organisms, the impact on the health of Homo sapiens by environmental factors, and prevention methods for protecting life. The “Environmental Symbiosis Course” focuses on the creation of a comfortable and prosperous environment for the future, and conservation of water and the soil environment, the supply of safe water, chemical substances and health, and the development of people-friendly and eco-friendly materials, etc. are the subjects of study. Working people who are interested in environmental problems which companies or research and development institutions face, students from Japan and international students, are welcome.

Note: () is the number of laboratories as of May, 2015 (will be updated). Graduate school affiliate university laboratories, including those outside of Japan.

For more details, please refer to the laboratory pages in the Graduate School Guidelines 2014-2015 (Distributed separately) and the graduate school web site, <http://sfns.u-shizuoka-ken.ac.jp/sfnseng/>

Students cannot be supervised by Visiting professors, visiting associate professors, specially-appointed professors, or instructors. Students must belong to the laboratories of the professors or associate professors, and must conduct joint research to receive research guidance from them. Please contact the Dean of the Graduate Division of Nutritional and Environmental Sciences (Hirokazu Kobayashi, Tel: +81-54-264-5582, email: hirokoba@u-shizuoka-ken.ac.jp) for more information.

1 Number of Successful Applicants and the Period of Study

Department	Number of Successful Applicants			Standard Period of Study
	First Application	Second Application	Total	
Graduate Program in Food and Nutritional Sciences	5	5	10	3 years
Graduate Program in Environmental Health Sciences	4	3	7	

Note 1: The number of students includes those from the Special Screening for Working People (a few) and the Special Screening for International Students (a few).

Note 2: For more details about research in the graduate programs, Please refer to the web sites of the School of Pharmaceutical Sciences, the laboratory page in these Guidelines or the Graduate School Guidelines 2014-2015 (Distributed separately).

Note 3: Applicant must have been enrolled in the Graduate School for at least 5 years (an applicant who has been enrolled for at least 2 years in a master's program, such 2 years of enrollment in the program counts if he/she has completed the program), earned at least 36 credits, and passed his/her doctor's thesis assessment and final examination conducted by the Graduate Schools after receiving necessary research guidance. (Excerpt from the Graduate School of the University of Shizuoka rules)

(Excerpt from the Graduate School of the University of Shizuoka rules)

2 Screenings and Eligibility of Applicants

- (1) A Person who has a Master's Degree specified in Article 104 of the School Education Act (including a person who is expected to obtain such degree by March 2015).
 - Professional Graduate School is excluded.
- (2) A Person who is conferred a degree outside Japan equivalent to a Master's Degree. (Including a person who is expected to be conferred such degree by March 2015).
- (3) A Person who completed formal education through a distance education program offered by a foreign school while staying in Japan, and is conferred a degree equivalent to a Master's Degree (including a person who is expected to be conferred such degree by March 2015).
- (4) A Person who was conferred a degree in Japan equivalent to a Master's Degree or a Professional Degree, after having completed the courses specified by the Minister of Education, Culture, Sports, Science and Technology separately, at the educational institutions which are categorized by the school education systems in their respective countries, with graduate programs available at such institutions.
- (5) A Person who is designated by the Minister of Education, Culture, Sports, Science and Technology in accordance with the provisions of Item 4 of Article 156 of the Ordinance for Enforcement of the School Education Act.
 - “Person who is designated by the Minister of Education, Culture, Sports, Science and Technology” means “Person graduated a college/university, or engaged in research work at a university or a research institution for at least two years after 16 years of formal education outside Japan, and who was recognized for achievement in research equivalent or superior to the academic credentials of those who have completed the master's program”.
- (6) A Person who is approved by the Chairman of the University of Shizuoka as an applicant through our Graduate School's individual qualification screening procedure for having academic credentials equivalent to or superior to those who have completed the master's program. Such an applicant must be at least 24 years old by March 31, 2015.
- (7) Other persons who are approved by the Chairman of the University of Shizuoka for having academic credentials equivalent to or superior to those who have completed the master's program.
 - A Person who meets (2) to (7) in Eligibility of Applicants, please submit the following required documents (First Application, Second Application, respectively) to the Entrance Examination Office of the Student Affairs Department during the application period that is written on the cover sheet, for a qualification evaluation for admission. Please be advised that no application will be accepted after the end of the application period for any reason whatsoever.

Category	Documents to be submitted	Details
Eligibility of Applicants (2),(3),(4) (5),(6),(7)	a. Application Form for Admission	The provided form should be filled out. • Available to download from our web site.
	b. Certificate of Graduation (original)	Issued by the university from which you graduated most recently (in your country if you are an international student).

	c. Academic Record (original)	Issued by undergraduate and graduate universities (if you are an international student, issued by the university from which you graduated most recently in your country). · Students already enrolled in the university, must submit an official transcript of their prior student academic records.
	d. Summary of Previous Research Experience	A4, Portrait, any form (Japanese or English)
	e. List of Your Research Papers	A4, Portrait, any form (Japanese or English)
	f. Research Papers	Thesis projects and summaries (approximately 800 words) and other research papers.

- When your family name has changed, please attach a document, such as an official copy of the part of the family register, etc., that can verify such changes.
- If you are an international student, and are not able to submit either b. or c., please submit documents certifying your qualifications (certifications obtained).
- Please attach Japanese or English translation to your certificate of graduation and academic record.
- Please make a request at the time of application, if you want your originals returned for such reasons as that only one copy of certificate can be provided to international students.
- A person who has submitted an application in the past must receive a qualification evaluation for admission for this year.

3 Screenings

<General Screening>

A person who meets any of (1) to (7) in section 2. Eligibility of Applicants.

- If you continue to work in a company or a research institution, etc., please be sure to avoid any problems between your workplace and your studies.

<Special Screening for Working People>

A person who meets any of (1) to (7) in section 2. Eligibility of Applicants, and who is qualified for a Special Screening for Working People if he/she falls under any of the following conditions, may apply for a Special Screening for Working People.

- ① A person who has at least 3 years of working experience
- ② In addition to ①, a person who is working at a company or engaged in research at institutions, etc. and has obtained approval from such work place.
- ③ Other persons who have received special consideration from the Chairman of the University of Shizuoka.

- If you continue to work in a company or a research institution, etc., please be sure to avoid any problems between your workplace and your study.
- Qualifications screening is required for applicants of Special Screening for Working People. Please submit the following documents (First Application, Second Application, respectively) to the Entrance Examination Office of the Student Affairs Department during the application period which is written on the cover sheet. If you are not qualified for Special Screening for Working, you cannot apply for a Special Screening for Working People.

Additional Documents to be submitted		Details
g	Certificate of Applicant's Working Records	Working period shall be certified by the supervisors of the applicants or representatives. (A4, Portrait, any form)
h	Ticket for Admission to an Examination	Ticket for Admission to an Examination (with working period) shall be prepared by the supervisors of the applicants or representatives when applicants are enrolling while they are still in their offices (A4, Portrait, any form).

- Submit all of a. to f. and g. or h.
- When your family name has changed, please attach a document, such as an official copy of the part of the family register, etc., that can verify such changes.
- Please submit g. or h.
- Applicants or representatives, please have the official seal of approval stamped on a. or b. by your supervisors, and use the "Dean of the Graduate School of Integrated Pharmaceutical and Nutritional Sciences" as an addressee.

<Special Screening for International Students>

A person who meets any of (1) to (7) in section 2. Eligibility of Applicants, and is not a Japanese national, and

entered Japan for the purpose of education, may apply for Special Screening for International Students. Please submit the documents a. to f. described earlier (First Application, Second Application, respectively) to the Entrance Examination Office of the Student Affairs Department during the application period that is written on the cover sheet, for a qualification evaluation for admission.

4 Application Period

[First Application] **From Tuesday, July 22 to Monday, July 28, 2014**

[Second Application] **From Thursday, January 29 to Wednesday, February 4, 2015**

- If you are a foreigner and you are acquiring a new visa to enter Japan, you are recommended to apply for the First Application.
- Hours: **Weekdays from 9:00 to 12:00, 13:00 to 16:00 (to 15:00 on the last application day)**
- Application must be received **by 15:00 of the last day by mail or by delivery. Please submit your application form in advance.**

5 Application Method

Use specified envelope (H 332mm × W 240mm) with all necessary documents, etc. enclosed. Seal it securely and send it to the **Entrance Examination Office of the Student Affairs Department** (Write “**Entrance Examination Application for Doctoral Program (Graduate Program in Food and Nutritional Sciences or Graduate Program in Environmental Sciences) of the Graduate School of Integrated Pharmaceutical and Nutritional Sciences**”

If you mail it, please use **registered express mail** (No acceptance after the application period ends).

6 Documents to be Submitted

Documents to be submitted		Details
a	Application Form (Internal Application Form)	The provided form should be filled out. © Please contact chief instructors of your desired lecture or laboratory prior to submitting your application. <ul style="list-style-type: none"> • Person who is expected to complete the Master's program of the Graduate School of Integrated Pharmaceutical and Nutritional Sciences, the Division of the Nutritional and Environmental Sciences or the Division of Pharmaceutical Sciences, and desires to proceed to the Doctoral Program of the Graduate School of Integrated Pharmaceutical and Nutritional Sciences, circle “Internal”.
b	Photo Form	The provided form should be filled out. The provided form should be filled out. Photo (no hat, upper body, front view, 4.0 cm × 3.0 cm. It must have been taken within 3 months of application.
c	Thesis Project, etc.	Submit one “Master's thesis” (copy is accepted) and its summary. (A person who is expected to complete the master's program, a summary of your research report may be accepted). A person who meets (5), (6), and (7) in Eligibility of Applicants, submit your research history, summary of your research, a list of your research papers and one copy of your research paper. © The summary of your research shall be about 800 words. (A4, portrait, word processing is accepted) <ul style="list-style-type: none"> • If you already submitted it for preliminary screening, that will not be necessary.
d	Academic Record (in the undergraduate and graduate universities) (Original)	Submit your academic records prepared by the undergraduate and graduate universities, respectively, and seal them securely. A person who meets (2) to (7) in Eligibility of Applicants, instructions may be given separately. <ul style="list-style-type: none"> • Students already enrolled in the university, must submit an official transcript of their prior student academic records. • If you already submitted it for preliminary screening, that will not be necessary.
e	Certificate of Graduation, or Prospective Graduation, for Your Master's Degree (original)	Submit your certificate prepared by the graduate university, and seal it securely. A person who meets (2) to (7) in Eligibility of Applicants, instructions may be given separately. <ul style="list-style-type: none"> • If you already submitted it for preliminary screening, that will not be necessary.
f	Entrance Examination Fee	30,000 Yen We only accept postal money orders issued by the Japan Postal Service. <u>Please leave the name of the receiver blank.</u>

		<ul style="list-style-type: none"> Entrance Examination fee is not necessary for a person who is expected to complete the Master's program of the Graduate School of Integrated Pharmaceutical and Nutritional Sciences, the Division of the Nutritional and Environmental Sciences or the Division of Pharmaceutical Sciences, and desires to proceed to the Doctoral Program of the Graduate School of Integrated Pharmaceutical and Nutritional Sciences.
g	Return Envelope (which will be used to send the examination card to the applicant)	<ul style="list-style-type: none"> Provided envelope or an envelope of size 235 mm × 120 mm. Write applicant's name, address, and postal code, with 522 Yen stamp on the envelope. Do not cross out “様” on the provided envelope. Contact the Entrance Examination Office if your examination card has not arrived by the following dates. (First Application) Tuesday, August 12, 2014. (Second Application) Friday, February 27, 2015.
h	Address Form	The provided form should be filled out. Write the name of the school, your address (where results and other documents required for the admission procedure are received), your name and postal code. Do not cross out “様” on the form.
i	English Skills Test Score Score of TOEFL-iBT or TOEIC (Secure Program Test) (Original) • For the Second Application of the Graduate Program in Food and Nutritional Sciences only.	<ul style="list-style-type: none"> TOEFL-iBT “Examinee Score Report” sent by the test sponsor to the applicant. TOEIC (Secure Program Test): “Official Score Certificate” sent by the test sponsor to the applicant. The original will be returned with the examination card. The test must have been taken after April 1, 2013. We do not accept scores of tests taken before March 31, 2013.

- Please attach Japanese or English translation to d. and e. Please make a request at the time of application, if you want your originals returned.
- TOEFL-iBT conducts TOEFL iBT® test on-line in English. These tests are conducted in 4 sections (Listening, Reading, Speaking, Writing) and last approximately 4 hours and 30 minutes. For more details about TOEFL-iBT, please refer to <https://www.ets.org/jp/toefl/ibt/about/>.
- TOEIC (Secure Program Test) conducts TOEIC test for Listening (100 questions, 45 minutes) and Reading (100 questions, 75 minutes), 200 questions and 2 hours in total. It is conducted with a mark sheet system. For more details about TOEIC (Secure Program Test), please refer to <http://www.toeic.or.jp/index.html>.

©Please submit the following documents if you are applying under (2) in Eligibility of Applicants as an international student, etc.

Documents to be submitted	Details
Certificate of Foreign Resident Registration	A copy of the certificate of your alien registration card or the original certificate of your residence in Japan (with residence visa and period of stay) issued by a city office, if you are living in Japan. A foreigner who does not live in Japan shall submit a copy of the passport or document that proves their nationality.

7 Screening Method

Graduate Program in Food and Nutritional Sciences

[First Application]

Your academic skills (TOEFL ITP), academic records, master's thesis project or research reports and oral examination are all taken into account (100 points) by category (General Screening, Special Screening for Working People and Special Screening for International Students).

- TOEFL ITP is a TOEFL program for groups, and TOEFL ITP® (LEVEL 1) will be conducted at the Graduate School examination hall. Examination uses a mark sheet system and lasts approximately 90 minutes. No dictionary is permitted at the examination. No Listening Comprehension will be conducted. The examination result is effective for only the Entrance Examination of this Graduate School, and is not recognized as a formal score.

Please refer to <http://www.cieej.or.jp/toefl/itp/> for more details of TOEFL-ITP.

[Second Application]

Your oral examination result, TOEFL-iBT or TOEIC (Secure Program Test) score, academic records, thesis project or research reports and oral examination are all taken into account (100 points) by respective screenings (General Screening, Special Screening for Working People and Special Screening for International Students).

Graduate Program in Environmental Health Sciences

Your submitted documents, your academic skills (Scientific English: 100 points), and your oral examination are all taken into account (100 points) by category (General Screening, Special Screening for Working People and Special Screening for International Students).

8 Schedule of Entrance Examination and Venue

(1) Date

◎ First Application

Graduate Program in Food and Nutritional Sciences

Date	Time	Subjects, etc.
Tuesday, August 19, 2014	From 9:30 to 11:30 (120 minutes)	TOEFL ITP
	From 13:00	Oral examination

- The examination time for “TOEFL-ITP” includes 30 minutes for instructions.
- “Oral examination” will evaluate your research skills, but mainly your presentation skills.

Graduate Program in Environmental Health Sciences

Date	Time	Subjects, etc.
Tuesday, August 19, 2014	From 10:00 to 11:30 (120 minutes)	Scientific English
	From 13:00	Oral examination

- You may bring one general English-Japanese dictionary to the “Scientific English” examination. No electronic dictionary is permitted. You may choose questions to answer in English.
- “Oral examination” will evaluate your research skills, but mainly your presentation skills.

◎ Second Application

Graduate Program in Food and Nutritional Sciences

Date	Time	Subjects, etc.
Tuesday, March 3, 2015	From 10:00	Oral examination

- “Oral examination” will evaluate your research skills, but mainly your presentation skills.

Graduate Program in Environmental Health Sciences

Date	Time	Subjects, etc.
Tuesday, March 3, 2015	From 10:00 to 11:30 (120 minutes)	Scientific English
	From 13:00	Oral examination

- You may bring one general English-Japanese dictionary to the “Scientific English” examination. No electronic dictionary is permitted. You may choose questions to answer in English.
- “Oral examination” will evaluate your research skills, but mainly your presentation skills.

(2) Examination Venue

University of Shizuoka (See map at the back of the guide book)

9 Announcement of Successful Applicants

Announcement date of successful applicants is on the cover sheet.

- (1) IDs of applicants who passed the examination will be posted on the **1st floor of the Habataki Building (Campus center)**.
- (2) The result will also be sent by mail to successful applicants (Telephone inquiries about the results are not permitted).
- (3) IDs of applicants who passed the examination will be posted on the web site at <http://www.u-shizuoka-ken.ac.jp/>. The official document sent to successful applicants is the formal notice of admission.

10 Precautions on Application

(1) If documents required in the format supplied in section 2. Eligibility of Applicants, in section 3. Screenings and in section 6. Documents to be Submitted, they can be obtained in PDF form on the Admissions page of our web site (<http://www.u-shizuoka-ken.ac.jp/>). You can also make a request to the Entrance Examination Office.

- Please follow the procedure below if you request Entrance Examination Guidelines with the application forms via mail.

A. Make sure to write "**Request for Entrance Examination Guidelines for Doctoral Program (Graduate Program in Food and Nutritional Sciences or Graduate Program in Environmental Health Sciences) of Graduate School of Integrated Pharmaceutical and Nutritional Sciences**" in red ink on the front, and your name and address on the other side of the envelope with a return envelope enclosed.

B. Return envelope shall be the size of 332 mm × 240 mm with addressee's name, address, postal code, and 205Yen stamp on the envelope (485 Yen for express mail)

- (2) We may not accept an incomplete application.
- (3) No changes will be accepted regarding the contents of the documents after you have submitted them.
- (4) Admission will be revoked if false descriptions are found in your documents.
- (5) Documents that you submit will not be returned, and the screening fee cannot be refunded.
- (6) Applicant with a physical disability (the degree of disability shall be in accordance with 3 of Article 22 of the Order for Enforcement Regulations for the School Education Act) who needs special consideration at the examination, please make an inquiry to the Entrance Examination Office in advance by the following dates:
- First Application: by 17:00, Thursday, June 26, 2014
 - Second Application: by 17:00, Thursday, December 18, 2014

11 Miscellaneous

(1) Enrollment Procedures, etc.

We will mail "Enrollment Guidelines" to successful applicants who wish to enroll. Details are as follows:

A. Enrollment Procedures

(a) Date of Enrollment

Saturday, March 14, 2015

Note) We will accept enrollments on Sunday, March 15, when enrollments cannot be made on Saturday, March 14. (Please contact us beforehand)

(b) Primary documents and fee required

a. Written oath b. Certificate of residence (for residents in Shizuoka Prefecture only) c. Photo

d. Registration fee · The amount of the registration fee will be in the Enrollment Guidelines which will be sent to you later on.

(Reference) Results of matriculation for FY 2014: 141,000 Yen for Shizuoka residents, 366,600 Yen for non-Shizuoka residents.

Note 1: "Shizuoka resident" means when the person or his/her spouse or first degree relative has an address in Shizuoka Prefecture for a consecutive year or longer as of March 1, 2015. Having an address in Shizuoka Prefecture is verified by the certificate of residence of yours or others.

Note 2: If the registration fee is revised by the end of 2014, the revised amount of registration fee will be applied.

Note 3: Entrance Examination fee is not necessary for a person who is expected to complete the Master's program of the Graduate School of Integrated Pharmaceutical and Nutritional Sciences, the Division of the Nutritional and Environmental Sciences or the Division of Pharmaceutical Sciences, and desires to proceed to the Doctoral Program of the Graduate School of Integrated Pharmaceutical and Nutritional Sciences.

e. Other expenses

Other expenses will be in the Enrollment Guidelines which will be sent to you later on.

B. Tuition

Other expenses will be in the Enrollment Guidelines which will be sent to you later on.

(Reference) Results of matriculation in FY 2014.

Tuition for the first semester (payment at the time of enrollment)	267,900 Yen
Tuition for the last semester (payment in October)	267,900 Yen
Total (annual tuition)	535,800 Yen

Note: We do not accept the annual amount of tuition in one lump sum. If the tuition is revised by the end of 2014 or during your registration process, the revised amount of tuition will be applied. If the tuition is revised during your enrollment, the revised amount of tuition will be applied at the time of the revision.

(2) Other reference

A Scholarship from the Japan Student Services Organization (former Japan Scholarship Foundation)

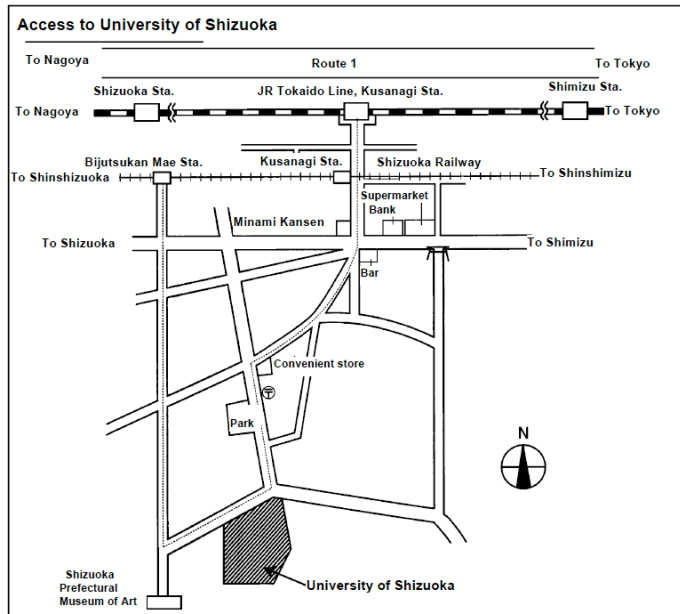

You will be asked if you are interested in receiving a scholarship when you receive official documentation for admission.

B. Exempt from tuition, etc.

The details for this system will be sent to you with “Enrollment Guidelines”.

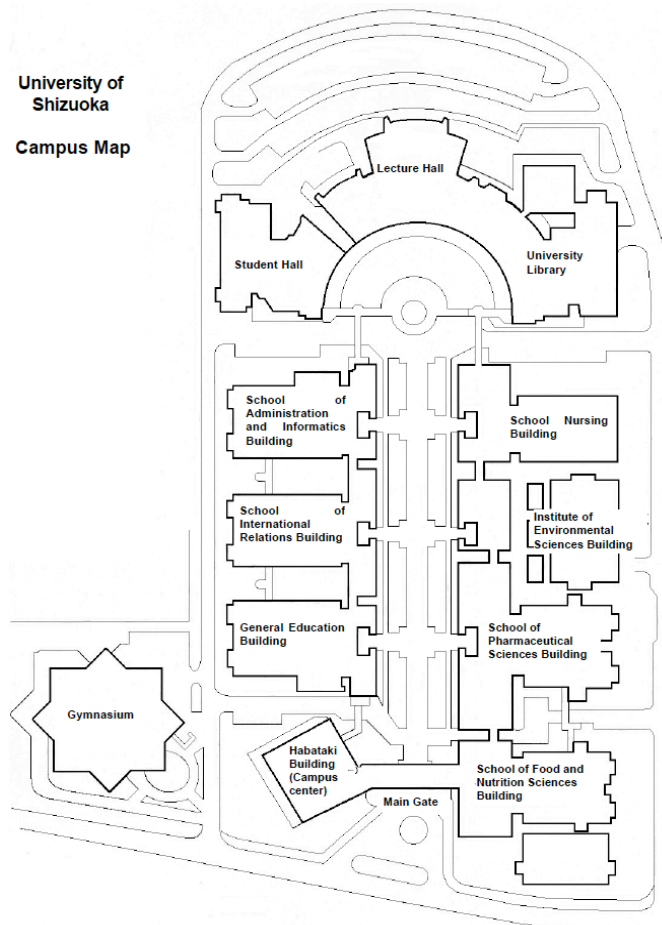

Please note that, if you are a disaster victim the admission fee may be exempted in addition to the tuition.

Note: Please inquire with the Student Affairs Office of the Student Affairs Department about scholarship from the Japan Student Services Organization and about tuition exemption, etc. (Tel: +81-54-264-5009).

On foot: Approximately 15 minutes from JR Kusanagi Station or Shizuoka Railway Kenritsu Bijutsukan Mae (Prefectural Museum) or Kusanagi Stations.
By bus: From in front of JR Kusanagi Station, take a Shizutestu Just Line bus bound for Kusanagi Danchi (Miho Kusanagi Line) and get off at the Kenritsu Daigaku Iriguchi (University of Shizuoka Entrance) stop. From there it is approximately a 5 minutes' walk. On weekday mornings only, you can get off at the Kenritsu Daigaku Mae (University of Shizuoka) stop, which is immediately in front of the university.
